Color language/Line following: Easily use markers to program the Ozobot to follow a line or exhibit certain behaviors.

OzoBlockly Programming: Free icon based programming website

Crash Detection: Built in sensors to have it stop when it detects another object.

App-Enabled: Evo connects to a free app on IOS and Android devices for even more creative fun.

Expressive sounds: Sounds that are unique to Evo that give it , its own personality.

Remote Controlled: take direct control of your Ozobot Evo

Ozochat and Ozojis: Chat and send Emojis or as we like to call them Ozojis to your friends through the Ozobot Evo App.
